

9296 Jumper & STRIPT™

TE Single
Poke-Home

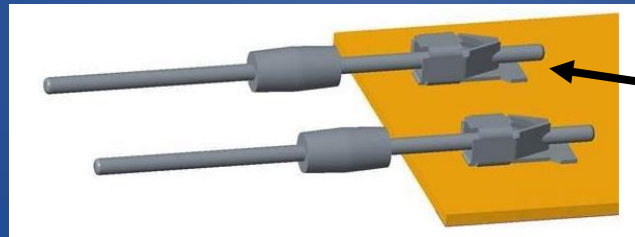

WAGO/Wurth
Jumper

Wire stops prevent the pins from traveling past the end of the contact to absorb mating tolerances in both contacts and connectors

Competition does not have:

- 2.5mm
- W/O Stop
- 38mm Pin Length

AVX's new Poke-Home
W/O a wire stop allows
for this

26mm: Internal BTB
38mm: External module

Competition: Wago & Wurth

New 9296 Launch

Wire-to-Board & Board-to-Board

STRIPT™ 2.5mm Poke-Home: Series 9296

- 1st Ever without wire stop
- Fatigue resistant beams
- Integral centering guides
- Closed box design maximizes strength
