# TINYSCREEN BASIC KIT

ASK1005

DESCRIPTION

This **TinyScreen Basic Kit** has the bare essentials to get going with the TinyDuino with the OLED **TinyScreen**! This kit comes with a TinyDuino processor with lithium battery support, so you can run your projects off a battery. You can also power your TinyDuino with a USB cable plugged in.

This kit includes the following items:

- **TinyDuino Processor Board w/ lithium battery support** - Runs your Arduino and TinyScreen programs

- **TinyShield USB Board** - Used to communicate with your TinyDuino from your computer and upload new programs (USB Top Mount version)

- **TinyScreen - OLED TinyShield** - A beautiful 96x64 color OLED display

- **140 mAh Rechargable Lithium Polymer Battery** - Power your TinyDuino projects

This kit also includes basic instructions to get your first program running.
